Reiki is gentle, painless, and non-invasive and stress free for human and animals. It does no harm to the animal or the practitioner or its owner.

Reiki can help maintain health on all levels. Reiki can heal physical illness and injury (in case of a broken bone or internal injury) they MUST see a vet first, and then I can work with healing after the vet visit.

Each animal is respectfully offered Reiki and is given freedom of Choice for Acceptance.

If the animal does not do the full hour, Payment arrangements can be discussed before the session.
